

MASTER CLASS 122

MASTERFUL

The Master Class 122 combines the highest level of craftsmanship, the finest materials, and patented technology. Soundboard wood from the Val di Fiemme, a sostenuto pedal, and other exclusive details ensure a balanced, sparkling sound – designed for discerning pianists and an unparalleled listening experience.

FOR THE HIGHEST STANDARDS

The Master Class 122 from SAUTER brings together tradition, innovation, and masterful craftsmanship. This instrument embodies the very highest standards one can place on a piano.

Thanks to the patented construction of the sostenuto pedal, its function can be adjusted with exceptional precision and ease. The sound is further enhanced by hammerheads with cores made of precious wood enhance the tone and are ideally matched to the resonating body.

PRECIOUS WOODS

For even better purity of tone, our soundboards use only the finest white spruce harvested at an altitude of 1,100 meters from the Fiemme Valley in the high plateau of South Tyrol. This is the same wood Stradivarius used to make violins. Its working properties and the unique „SAUTER spherical concavity®“ ensure a balanced, sparkling sound from bass to treble and unadulterated listening pleasures.

ADDITIONAL EXCLUSIVE DETAILS

Sharps made of precious woods. Hand-polished cast plate. Hammer heads with walnut cores and hand-selected, high-quality felts for nearly unlimited expressivity. Inner case and hammer rests with genuine bird's-eye maple laminate. Double repetition action. Lock, hygrometer, brass casters, stable notch, fall damper.
