

UPRIGHTS – CLASSIC LINE

SCHOOL PIANO 116/122

THE ROBUST PIANO – MADE FOR EVERY MOMENT

Whether in a school, on stage, or in a jazz cellar, the SAUTER school piano combines durability, comfort and sound. Crafted in Germany.

THE ROBUST PIANO – UNCOMPROMISING IN SOUND

A robust piano without tonal compromise, available in heights of 116 cm and 122 cm. Designed for flexible and reliable use, it is ideal for schools, stages and jazz cellars.

With a hydraulic fall damper, moderator and extra-long music rack, it offers exceptional playing comfort. Two locks on the fallboard and top lid protect the instrument from unauthorized access, while replaceable bumper/transport handle, along with smooth-rolling casters, allow effortless movement between rooms.

All of this comes together in the quality and durability of true German craftsmanship – manufactured 100% in Spaichingen.

FORMIDABLE DETAILS

The soundboard, crafted from carefully selected mountain spruce and featuring the „SAUTER spherical concavity®“, ensures a voluminous, well-balanced sound. Both School Piano models (116 and 122) are equipped with a moderator pedal; the 122 model additionally features the innovative RR grand piano action – a SAUTER development that enables a touch comparable to that of a grand piano.
