Weight: 285 respectively 330 kg, 628 lbs, 727 lbs

* Utility patent no. 29520529.6

** Patent no. 19506971

This piano possesses beautiful shapes.

The noble woods and handmade carvings

emphasise the particular and magical character

of this instrument. The sound board is made

of the finest mountain spruce, and special

hammerheads are incorporated in this piece. Key features: Sostenuto pedal

(sustaining pedal). Lid prop made of solid maple for greater brightness of

sound. Hydraulic fall damper*. User friendly music stand** with convenient

'single-handed' operation, for extra reliability and comfort whilst playing.

Carved legs and lyre.
