

ALPHA 160

THE GRAND PIANO FOR THE MUSIC ROOM

Compact yet powerful: the SAUTER Alpha 160 inspires with a rich, voluminous sound and colourful depth. High-quality materials, stable construction and elegant details combine to create an instrument of expression, precision and timeless elegance – ideal for the music room.

IMPRESSIVE SOUND

Compact in format, impressive in sound. Due to the length of the bass strings, the small SAUTER grand piano unfolds an amazingly full, voluminous sound. Its sound board made of finely grown mountain spruce provides a special depth of sound and a colourful variety of tones, which gives the instrument its unmistakable, characterful voice.

STABLE CONSTRUCTION

The very stable construction with solid beech wood beams and multilayered, glued frame distinguishes the Alpha 160. The soundboard is made of high quality mountain spruce. Selected felts are used for the hammer heads.

EXCLUSIVE DETAILS

Ebony sharps. Large brass double castors. Sostenuto pedal. Solid maple lid prop for more sound brilliance. Hydraulic damper of the fallboard. Music stand with convenient 'single-handed' operation.
